Concert Etiquette Rap

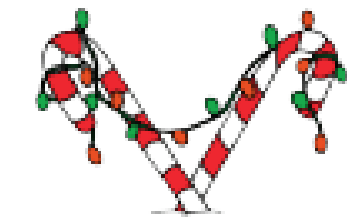

by Denise Gagné and Denese Odgaard

Welcome to our concert - we're really glad you came.
We will listen carefully - we hope you do the same.
Some of us are really small - our voices aren't too strong.
If you're really quiet - you'll still hear - you won't go wrong.

We have a few suggestions to make this fun for all.
Please turn your CELL phones off so they don't ring inside the hall.
If you really have to go, please leave when there's applause.
You may enter once again - when there is a pause.

If your baby's crying and it's really, really loud,
Please take them out until they're calm - this time it is allowed! Save
the hoots and hollers for when you're at the game.
When you're at a concert, it isn't quite the same.

Paparazzi parents scare the class that is performing
Please stay in your seats 'cause all those cameras are alarming! We
hope that you will stay and watch until the very end.
We really will appreciate this - our thanks to you we'll send!
