

## **Video submission guidelines**

- 1 – Record in landscape mode in a well-lit space with a clean background.
- 2 – Record in a quiet place that isn't too reverberant.
- 3 – Use earbuds to monitor the backing tracks so that the backing tracks don't get recorded along with your voice. We will be unable to use your voice if the backing track gets recorded along with your voice.
- 4 – Send your video to our team using [wetransfer.com](https://wetransfer.com). You will send the files to [video@musicplay.ca](mailto:video@musicplay.ca). Do NOT send your video via regular email, as this may cause issues receiving the files.
- 5 – If you have any questions, please email us at [support@musicplay.ca](mailto:support@musicplay.ca) for more information.
